## Critical Information Summary

### ALDI mobile 30 Day Data Plans (Discontinued)

#### Must know information

**Last Updated: 15 December 2023**

Plan description: **These plans were withdrawn from sale on 17 December 2019.**

These plans are an optional 30 day prepaid add-on for existing eligible customers. If a customer's previous recharge was one of these plans, they will be eligible to recharge on that plan. They are not available for new purchases. They allow a customer with their own compatible mobile handset, an activated ALDI mobile SIM card and a current ALDI mobile Pay As You Go (PAYG) base plan to send and receive data. They do not provide any credit for making calls or sending SMS messages. ALDI mobile services are for **personal use only**.

## Online Safety Code Manual

### Speed caps

Important: Online safety information Our Online Safety Code Manual can be found at [https://m3.aldimobile.com.au/docs/Online\\_Safety\\_Code\\_Manual.pdf](https://m3.aldimobile.com.au/docs/Online_Safety_Code_Manual.pdf) includes important information about internet content filtering products that may limit or prevent access to illegal or restricted material on the internet.

\$15 Data Plan	\$30 Data Plan	\$65 Data Plan
Speed capped at 100Mbps		

It is important to note that the speed cap on your plan is the maximum potential download speed for data included in your recharge/plan.

Typical speeds will often be lower, as mobile speeds vary due to the many factors listed below. Beyond the maximum potential speed for your selected plan, a speed cap does not indicate any difference relative performance for a specific plan compared to another plan with a different speed cap.

Factors influencing your actual speeds:

- The topography of your location (for example any obstructions of the line of sight to the base station);
- Your distance from the base station;
- The local weather conditions (like extreme heat or heavy rain);
- How many other users are accessing the mobile network from the base station at the same time (i.e., number of concurrent users);
- Whether your device supports the relevant mobile network spectrum bands
- The hardware and software configuration on your device;

The destination of your internet browsing session (eg a busy web server).

This is a summary only. The full terms and conditions and pricing for this plan can be found on our website at [www.aldimobile.com.au/legals](http://www.aldimobile.com.au/legals).
